STAT

Dear [Redacted]

STAT

As a follow-up to my letters of 27 May and 14 July describing the Senate Select Committee's studies in the field of foreign intelligence, the Committee would like to sponsor a special study on the relation between the production of national intelligence estimates and the allocation of total U.S. collection resources. This study will be under the direction of Dr. Arthur Herrington.

Attached to this letter is a memorandum briefly describing the subjects which this study will address.

I would appreciate your providing Dr. Herrington with access to the people within your agency who would be most knowledgeable about these issues and to the relevant documents.

Sincerely,

Bill
